

Wiperdrive's Slotted Angles, Shelves, Corner plates and Walkways

Wiperdrive angles is designed to provide simple cost-effective solutions to almost any storages problem from steel shelf binning cantilever shelving to work tables, trolley, frames, racks mezzanine floor, & walkway etc....

The Pre-punched hole pattern allow multiple sections to be bolted together to form racking or shelving units to suit all types of storage requirments.

For extra strength all that required is the addition of side and back panels or bracing. The shelving can be easily tailored to your exact requirements with the addition of components from the range of accessories
